4	The c	emergence of sustainability criteria	49
	4.1	Discounted utility 50	
	4.2	Undiscounted utility 57	
	4.3	The maximin criterion 61	
	4.4	The green golden rule 65	
	4.5	The Chichilnisky criterion 67	
	4.6	The mixed Bentham-Rawls criterion 71	
	4.7	Sustainable consumption and investment 72	
5	Som	e comments on key results and misleading	
	inter	pretations	74
	5.1	Maximin criterion, Solow's model and Hartwick's rule 74	
	5.2	The generalized Hartwick rule 77	
	5.3	Genuine savings: a step toward the practice of	
		sustainability? 78	
	5.4	Some comments on misleading points 79	
	5.5	To sum up on Hartwick's rule and genuine savings 87	
6	Wha	at can we preserve for future generations?	89
	6.1	Conservation in neoclassical optimal growth problems with	
		sustainability constraints 90	
	6.2	Conservation with alternative sustainability criteria 92	
	6.3	Welfare measurement 95	
	6.4	Conclusion of Part I 99
