

Table of Contents

Preface	iii		
Acknowledgments	viii		
Chapter 1: An Introduction to Microeconomics	1		
1.1 The Scope of Microeconomic Theory	2		
1.2 The Nature and Role of Theory	2		
What Is a Good Theory?	2		
1.3 Positive versus Normative Analysis	3		
1.4 Market Analysis and Real versus Nominal Prices	4		
<i>Application 1.1 Real Versus Nominal Presidential Salaries</i>	5		
1.5 Basic Assumptions about Market Participants	5		
1.6 Opportunity Cost	6		
<i>Application 1.2 Why the King Left Cleveland in 2010, and Can Benefits in Sports Be Measured?</i>	7		
Economic versus Accounting Costs	7		
<i>Application 1.3 The Accounting and Economic Costs of SOX</i>	8		
Sunk Costs	8		
<i>Application 1.4 Why It Was Profitable to Demolish a Profitable Hong Kong Hotel</i>	9		
1.7 Production Possibility Frontier	9		
Constant versus Increasing per-unit Opportunity Costs	10		
Chapter 2: Supply and Demand	13		
2.1 Demand and Supply Curves	14		
The Demand Curve	14		
<i>Application 2.1 The Law of Demand at Work for Non-work</i>	15		
Determinants of Demand Other Than Price	16		
Shifts in versus Movements along a Demand Curve	17		
<i>Application 2.2 The Rise and Fall of Cigarette Consumption in the United States</i>	18		
<i>Application 2.3 The Occasional Interplay Between Price and Non-Price Factors in Determining Quantity Demanded</i>	18		
The Supply Curve	19		
Shifts in versus Movements along a Supply Curve	20		
2.2 Determination of Equilibrium Price and Quantity	21		
2.3 Adjustment to Changes in Demand or Supply	22		
<i>Application 2.4 Why Holiday Home Prices in Switzerland are Soaring</i>	23		
Using the Supply–Demand Model to Explain Market Outcomes	24		
2.4 Government Intervention in Markets: Price Controls	25		
Rent Control	25		
Who Loses, Who Benefits?	27		
Black Markets	28		
<i>Application 2.5 Health Care Reform and Price Controls</i>	29		
<i>Application 2.6 Price Ceilings Can Be Deadly for Buyers</i>	30		
2.5 Elasticities	30		
Price Elasticity of Demand	30		
Calculating Price Elasticity of Demand	32		
<i>Application 2.7 Demand Elasticity and Cable Television Pricing</i>	34		
Demand Elasticities Vary among Goods	34		
The Estimation of Demand Elasticities	35		
<i>Application 2.8 Why Canadians Are Flying South of the Border</i>	36		
Three Other Elasticities	36		
<i>Application 2.9 Price Elasticities of Supply and Demand and Short-Run Oil Price Gyration</i>	38		
Chapter 3: The Theory of Consumer Choice	42		
3.1 Consumer Preferences	43		
Consumer Preferences Graphed as Indifference Curves	44		
Curvature of Indifference Curves	45		

Application 3.1 Diminishing MRS and Newspaper Retailing 48
 Individuals Have Different Preferences 48
Application 3.2 Oreos in the Orient..... 48
 Graphing Economic Bads and Economic Neuters 49
 Perfect Substitutes and Complements 51
3.2 The Budget Constraint..... 52
 Geometry of the Budget Line 53
 Shifts in Budget Lines 54
3.3 The Consumer’s Choice..... 56
 A Corner Solution 57
 The Composite-Good Convention 58
Application 3.3 Premium Fast Food: Why Chipotle Is One Hot Pepper of a Stock..... 59
3.4 Changes in Income and Consumption Choices..... 60
 Normal Goods 60
 Inferior Goods 62
 The Food Stamp Program 64
Application 3.4 The Allocation of Commencement Tickets..... 65
3.5 Are People Selfish? 66
Application 3.5 Is Altruism a Normal Good?..... 68
3.6 The Utility Approach to Consumer Choice 69
 The Consumer’s Optimal Choice 70
 Relationship to Indifference Curves 71

A Graphical Examination of a Tax-Plus-Rebate Program 83
4.3 Income and Substitution Effects: Inferior Goods..... 85
 A Hypothetical Example of a Giffen Good 87
 The Giffen Good Case: How Likely? 87
4.4 From Individual to Market Demand 88
Application 4.3 Aggregating Demand Curves for ITO..... 88
4.5 Consumer Surplus 89
 The Uses of Consumer Surplus 92
Application 4.4 The Consumer Surplus Associated with Free TV 93
 Consumer Surplus and Indifference Curves 93
Application 4.5 The Benefits of Health Improvements..... 94
4.6 Price Elasticity and the Price–Consumption Curve..... 95
4.7 Network Effects..... 96
 The Bandwagon Effect 97
 The Snob Effect 98
Application 4.6 Network Effects and the Diffusion of Communications Technologies and Computer Hardware and Software..... 99
4.8 The Basics of Demand Estimation 100
 Experimentation 100
 Surveys 101
 Regression Analysis 101

Chapter 4: Individual and Market Demand 75

4.1 Price Changes and Consumption Choices ... 76
 The Consumer’s Demand Curve 77
 Some Remarks about the Demand Curve 77
Application 4.1 Using Price to Deter Youth Alcohol Abuse, Traffic Fatalities, and Campus Violence..... 78
 Do Demand Curves Always Slope Downward? 79
Application 4.2 Why the Flight to Poultry and away from Red Meat by U.S. Consumers?..... 80
4.2 Income and Substitution Effects of a Price Change 80
 Income and Substitution Effects Illustrated:
 The Normal-Good Case 81
 The Income and Substitution Effects Associated with a Gasoline Tax-Plus-Rebate Program 83

Chapter 5: Using Consumer Choice Theory 107

5.1 Excise Subsidies, Health Care, and Consumer Welfare..... 108
 The Relative Effectiveness of a Lump-Sum Transfer 109
 Using the Consumer Surplus Approach 110
Application 5.1 The Price Sensitivity of Health Care Consumers 111
5.2 Subsidizing Health Insurance: ObamaCare 112
 The Basics of ObamaCare 112
 The Subsidy’s Effect on the Budget Line 112
 Bringing in Preferences 113
 The Costs and Benefits of the Subsidy 114
 Other Possible Outcomes 114
 Can a Subsidy Harm the Recipient? 115
 One Other Option 115

<p>5.3 Public Schools and the Voucher Proposal 116 Using Consumer Choice Theory to Analyze Voucher Proposals 118 <i>Application 5.2 The Demand for and Supply of School Choice</i> 119</p> <p>5.4 Paying for Garbage 121 Does Everyone Benefit? 122 <i>Application 5.3 Trash Pricing and Recycling</i> 123</p> <p>5.5 The Consumer's Choice to Save or Borrow 124 A Change in Endowment 125 <i>Application 5.4 Social Security and Saving</i> 127 Changes in the Interest Rate 128 The Case of a Higher Interest Rate Leading to Less Saving 128</p> <p>5.6 Investor Choice 130 <i>Application 5.5 Entrepreneurs and Their Risk-Return Preferences</i> 131 Investor Preferences toward Risk: Risk Aversion 131 Investor Preferences toward Risk: Risk Neutral and Risk Loving 134 <i>Application 5.6 Risk Aversion While Standing in Line</i> 135 Minimizing Exposure to Risk 135</p>	<p>Chapter 6: Exchange, Efficiency, and Prices 140</p> <hr/> <p>6.1 Two-Person Exchange 141 The Edgeworth Exchange Box Diagram 142 The Edgeworth Exchange Box with Indifference Curves 143 <i>Application 6.1 The Benefits of Exchange and eBay</i> 145</p> <p>6.2 Efficiency in the Distribution of Goods 147 <i>Application 6.2 Promoting Efficiency in Gift Card Giving</i> 149 Efficiency and Equity 149</p> <p>6.3 Competitive Equilibrium and Efficient Distribution 150 <i>Application 6.3 Should Ticket Scalpers Be Disparaged or Deified?</i> 153</p> <p>6.4 Price and Nonprice Rationing and Efficiency 154 <i>Application 6.4 The Benefits and Costs of Rationing by Waiting</i> 155</p>	<p>Chapter 7: Production 159</p> <hr/> <p>7.1 Relating Output to Inputs 160 The Production Function 160</p> <p>7.2 Production When Only One Input Is Variable: The Short Run 160 Total, Average, and Marginal Product Curves 162 The Relationship between Average and Marginal Product Curves 162 The Geometry of Product Curves 163 <i>Application 7.1 What the Marginal-Average Relationship Means for Your Grade Point Average (GPA)</i> 164 The Law of Diminishing Marginal Returns 165 <i>Application 7.2 The Law of Diminishing Marginal Returns, Caffeine Intake, and Exam Performance</i> 166</p> <p>7.3 Production When All Inputs Are Variable: The Long Run 166 Production Isoquants 167 Four Characteristics of Isoquants 168 Marginal Rate of Technical Substitution (<i>MRTS</i>) 168 <i>MRTS</i> and the Marginal Products of Inputs 169 Using <i>MRTS</i>: Speed Limits and Gasoline Consumption 170</p> <p>7.4 Returns to Scale 171 Factors Giving Rise to Increasing Returns 171 Factors Giving Rise to Decreasing Returns 173 <i>Application 7.3 Returns to Scale and Cross-Country Trade Flows</i> 173</p> <p>7.5 Functional Forms and Empirical Estimation of Production Functions 174 Linear Forms of Production Functions 175 Multiplicative Forms of Production Functions: Cobb–Douglas as an Example 176 Exponents and What They Indicate in Cobb–Douglas Production Functions 177</p>	<p>Chapter 8: The Cost of Production 181</p> <hr/> <p>8.1 The Nature of Cost 182</p> <p>8.2 Short-Run Cost of Production 182 Measures of Short-Run Cost: Total Fixed and Variable Costs 183 Fixed versus Sunk Costs 183</p>
--	--	--	---

Five Other Measures of Short-Run Cost Behind Cost Relationships 184

8.3 Short-Run Cost Curves..... 185

Marginal Cost 186

Average Cost 187

Application 8.1 The Effect of Walmart on Retailing Productivity, Costs, and Prices..... 188

Marginal–Average Relationships 189

The Geometry of Cost Curves 189

8.4 Long-Run Cost of Production 191

Isocost Lines 191

Least Costly Input Combinations 192

Interpreting the Tangency Points 192

Application 8.2 American Airlines and Cost Minimization..... 194

The Expansion Path 194

Is Production Cost Minimized? 195

Application 8.3 Privatization and Productivity in China 195

8.5 Input Price Changes and Cost Curves..... 196

Application 8.4 The Economics of Raising and Razing Buildings..... 197

Application 8.5 Applying the Golden Rule of Cost Minimization to the Baseball Diamond..... 198

8.6 Long-Run Cost Curves..... 199

The Long Run and Short Run Revisited 200

8.7 Learning by Doing..... 202

The Advantages of Learning by Doing to Pioneering Firms 203

8.8 Importance of Cost Curves to Market Structure..... 203

Application 8.6 The Decline and Rise of Breweries in the United States 205

8.9 Using Cost Curves: Controlling Pollution..... 205

8.10 Economies of Scope 208

8.11 Estimating Cost Functions..... 209

Chapter 9: Profit Maximization in Perfectly Competitive Markets **213**

9.1 The Assumptions of Perfect Competition..... 214

The Four Conditions Characterizing Perfect Competition 214

9.2 Profit Maximization..... 215

Application 9.1 Aligning Managerial Actions with Shareholder Interests: Lessons from the Recession of 2007–2009 216

9.3 The Demand Curve for a Competitive Firm..... 217

9.4 Short-Run Profit Maximization 218

Short-Run Profit Maximization Using per-Unit Curves 220

Operating at a Loss in the Short Run 221

9.5 The Perfectly Competitive Firm’s Short-Run Supply Curve 223

Output Response to a Change in Input Prices 224

Application 9.2 Why Firms That Fatten Cattle are Seeing Their Own Numbers Thinned..... 224

9.6 The Short-Run Industry Supply Curve... 225

Price and Output Determination in the Short Run 227

9.7 Long-Run Competitive Equilibrium..... 227

Zero Economic Profit 228

Zero Profit When Firms’ Cost Curves Differ? 230

9.8 The Long-Run Industry Supply Curve ... 231

Constant-Cost Industry 231

Increasing-Cost Industry 233

Decreasing-Cost Industry 235

Application 9.3 The Bidding War for Business School Professors 236

Comments on the Long-Run Supply Curve 237

Application 9.4 Cashing In on Corn 238

9.9 When Does the Competitive Model Apply?..... 239

Chapter 10: Using the Competitive Model **243**

10.1 The Evaluation of Gains and Losses..... 243

Producer Surplus 244

Consumer Surplus, Producer Surplus, and Efficient Output 245

The Deadweight Loss of a Price Ceiling 247

10.2 Excise Taxation..... 249

The Short-Run Effects of an Excise Tax 250

The Long-Run Effects of an Excise Tax 251

Who Bears the Burden of the Tax? 252

Tax Incidence: The Effect of Elasticity of Supply 252

Tax Incidence: The Effect of Elasticity of Demand 253

Application 10.1 Relative Ability to “Run” and Tax Incidence 254

The Deadweight Loss of Excise Taxation 254

	<i>Application 10.2 The Long and the Short (Run) of the Deadweight Loss of Rent Control</i>	256
10.3	Airline Regulation and Deregulation	257
	What Happened to the Profits? 258	
	After Deregulation 259	
	<i>Application 10.3 The Contestability of Airline Markets</i>	260
	The Push for Reregulation 261	
10.4	City Taxicab Markets	262
	The Illegal Market 264	
	<i>Application 10.4 Why New York City Cab Drivers Are Poor and Drive So Fast</i>	265
10.5	Consumer and Producer Surplus, and the Net Gains from Trade	266
	The Gains from International Trade 268	
	The Link between Imports and Exports 269	
	<i>Application 10.5 Protecting Steel Jobs Steals Jobs</i>	270
10.6	Government Intervention in Markets: Quantity Controls	270
	Sugar Policy: A Sweet Deal 271	
	<i>Application 10.6 Why Sugar Import Quotas Were Job Losers with Respect to LifeSavers</i>	273
	Quotas and Their Foreign Producer Consequences 273	

Chapter 11: Monopoly 277

11.1	The Monopolist's Demand and Marginal Revenue Curves	278
11.2	Profit-Maximizing Output of a Monopoly	280
	Graphical Analysis 281	
	The Monopoly Price and Its Relationship to Elasticity of Demand 282	
	<i>Application 11.1 Demand Elasticity and Parking at Jack in the Box</i>	285
11.3	Further Implications of Monopoly Analysis	285
11.4	The Measurement and Sources of Monopoly Power	288
	Measuring Monopoly Power 289	
	The Sources of Monopoly Power 289	
	Barriers to Entry 290	
	<i>Application 11.2 The Effect of State Licensing on One of the World's Oldest Professions</i>	292
	Strategic Behavior by Firms: Incumbents and Potential Entrants 292	
	<i>Application 11.3 March Monopoly Madness</i>	293

11.5	The Efficiency Effects of Monopoly	295
	A Dynamic View of Monopoly and Its Efficiency Implications 296	
	<i>Application 11.4 Static Versus Dynamic Perspectives on Monopoly Control of Government</i>	298
11.6	Public Policy toward Monopoly	298
	Regulation of Price 299	
	<i>Application 11.5 What Not to Say to a Rival on the Telephone</i>	300
	<i>Application 11.6 Static versus Dynamic Views of Monopoly and the Microsoft Antitrust Case</i>	300
	<i>Application 11.7 Efficiency and the Regulation of Pharmaceutical Drug Prices in the European Union and the United States</i>	303

Chapter 12: Product Pricing with Monopoly Power 306

12.1	Price Discrimination	307
	First-Degree Price Discrimination 307	
	Implementing First-Degree Price Discrimination 308	
	Second-Degree Price Discrimination 309	
	Third-Degree Price Discrimination 309	
	<i>Application 12.1 Giving Frequent Shoppers the Second Degree</i>	310
	<i>Application 12.2 The Third Degree by Car Dealers</i>	311
12.2	Three Necessary Conditions for Price Discrimination	311
	<i>Application 12.3 Gray Hairs and Gray Markets</i> ..	312
12.3	Price and Output Determination with Price Discrimination	313
	Price Determination 313	
	Output Determination 314	
	<i>Application 12.4 The Cost of Being Earnest When It Comes to Applying to Colleges</i>	316
12.4	Intertemporal Price Discrimination and Peak-Load Pricing	316
	<i>Application 12.5 Yield Management by Airlines</i>	318
	Peak-Load Pricing 319	
	The Advantages of Peak-Load Pricing 320	
	<i>Application 12.6 Using Peak-Load Pricing to Combat Traffic Congestion</i>	321
12.5	Two-Part Tariffs	322
	Many Consumers, Different Demands 323	
	Why the Price Will Usually Be Lower Than the Monopoly Price 325	

Application 12.7 The Costs of Engaging in Price Discrimination..... 326

Chapter 13: Monopolistic Competition and Oligopoly 330

13.1 Price and Output under Monopolistic Competition..... 331
 Determination of Market Equilibrium 331
 Monopolistic Competition and Efficiency 333
 Is Government Intervention Warranted? 335
Application 13.1 Monopolistic Competition: The Eyes Have It (When It Comes to Refractive Surgery)..... 335

13.2 Oligopoly and the Cournot Model..... 336
 The Cournot Model 337
 Reaction Curves 338
 Evaluation of the Cournot Model 339

13.3 Other Oligopoly Models..... 340
 The Stackelberg Model 340
 The Dominant Firm Model 342
 The Elasticity of a Dominant Firm's Demand Curve 344
Application 13.2 The Dynamics of the Dominant Firm Model in Pharmaceutical Markets..... 345

13.4 Cartels and Collusion..... 345
 Cartelization of a Competitive Industry 346
Application 13.3 Does the Internet Promote Competition or Cartelization?..... 347
 Why Cartels Fail 347
Application 13.4 The Difficulty of Controlling Cheating..... 349
Application 13.5 The Rolex "Cartel"..... 349
 Oligopolies and Collusion 350
 The Case of OPEC 351
 The Reasons for OPEC's Early Success 352
 The Rest of the OPEC Story 352

Chapter 14: Game Theory and the Economics of Information 357

14.1 Game Theory..... 358
 Determination of Equilibrium 358
Application 14.1 Dominant Strategies in Baseball..... 359
 Nash Equilibrium 360

14.2 The Prisoner's Dilemma Game..... 361

Application 14.2 The Congressional Prisoner's Dilemma..... 362
 The Prisoner's Dilemma and Cheating by Cartel Members 363
 A Prisoner's Dilemma Game You May Play 365

14.3 Repeated Games..... 366
Application 14.3 Cooperation in the Trenches of World War I..... 368
 Do Oligopolistic Firms Always Collude? 368
 Game Theory and Oligopoly: A Summary 369

14.4 Asymmetric Information..... 369
 The "Lemons" Model 370
 Market Responses to Asymmetric Information 371
 The Relevance of the Lemons Model 372
 Is There a Lemons Problem in Used Car Markets? 372
Application 14.4 Job Market Signaling..... 373

14.5 Adverse Selection and Moral Hazard..... 373
 Adverse Selection 374
 Market Responses to Adverse Selection 374
Application 14.5 Adverse Selection and the American Red Cross..... 375
 Moral Hazard 375
Application 14.6 Moral Hazard and Subprime Home Mortgages..... 376
 Market Responses to Moral Hazard 377

14.6 Limited Price Information..... 377
Application 14.7 Moral Hazard on the Streets of New York City..... 377
 The Effect of Search Intensity on Price Dispersion 378

14.7 Advertising..... 379
 Advertising as Information 379
 Advertising and Its Effects on Products' Prices and Qualities 380
 Advertising, the Full Price of a Product, and Market Efficiency 381
Application 14.8 The Effectiveness of Internet Advertising: The Case of Online Dating..... 382

Chapter 15: Using Noncompetitive Market Models 385

15.1 The Size of the Deadweight Loss of Monopoly..... 385
 Why Are the Estimates of the Deadweight Loss Not Large? 387

	Other Possible Deadweight Losses of Monopoly	388
15.2	Do Monopolies Suppress Inventions?	389
	The Effect of Inventions on Output	390
	<i>Application 15.1 The Cost of Not Cannibalizing</i>	391
15.3	Natural Monopoly	392
	Regulation of Natural Monopoly: Theory	393
	Regulation of Natural Monopoly: Practice	394
	<i>Application 15.2 Regulating Natural Monopoly through Public Ownership: The Case of USPS</i>	395
15.4	More on Game Theory: Iterated Dominance and Commitment	396
	Iterated Dominance	396
	Commitment	398
	<i>Application 15.3 Why It May Be Wise to Burn Your Ships</i>	399

Chapter 16: Employment and Pricing of Inputs **402**

16.1	The Input Demand Curve of a Competitive Firm	403
	The Firm's Demand Curve: One Variable Input	403
	The Firm's Demand Curve: All Inputs Variable	405
	The Firm's Demand Curve: An Alternative Approach	406
16.2	Industry and Market Demand Curves for an Input	408
	A Competitive Industry's Demand Curve for an Input	408
	The Elasticity of an Industry's Demand Curve for an Input	409
	<i>Application 16.1 Explaining Sky-High Pilot Salaries under Airline Regulation</i>	410
	The Market Demand Curve for an Input	411
16.3	The Supply of Inputs	411
16.4	Industry Determination of Price and Employment of Inputs	413
	Process of Input Price Equalization across Industries	414
16.5	Input Price Determination in a Multi-Industry Market	416
16.6	Input Demand and Employment by an Output Market Monopoly	418
16.7	Monopsony in Input Markets	420
	<i>Application 16.2 Major League Monopsony</i>	421

Chapter 17: Wages, Rent, Interest, and Profit **425**

17.1	The Income–Leisure Choice of the Worker	425
	Is This Model Plausible?	427
17.2	The Supply of Hours of Work	428
	Is a Backward-Bending Labor Supply Curve Possible?	429
	The Market Supply Curve	430
	<i>Application 17.1 An Example of a Backward-Bending Labor Supply Curve: The Work Effort Choices of Dentists Versus Physicians</i>	431
	<i>Application 17.2 Why Do Americans Work More Than Europeans?</i>	432
17.3	The General Level of Wage Rates	433
	<i>Application 17.3 The Malaise of the 1970s</i>	434
17.4	Why Wages Differ	435
	Compensating Wage Differentials	436
	Differences in Human Capital Investment	437
	<i>Application 17.4 Twelve Hours' Pay for Ten Minutes' Work</i>	437
	<i>Application 17.5 The Returns to Investing in a BA and an MBA</i>	438
	Differences in Ability	438
17.5	Economic Rent	439
17.6	Monopoly Power in Input Markets: The Case of Unions	441
	<i>Application 17.6 The Decline and Rise of Unions and Their Impact on State and Local Government Budgets</i>	443
	Some Alternative Views of Unions and an Assessment of the Impact of Unions on Worker Productivity	444
17.7	Borrowing, Lending, and the Interest Rate	444
17.8	Investment and the Marginal Productivity of Capital	446
	The Investment Demand Curve	447
17.9	Saving, Investment, and the Interest Rate	448
	Equalization of Rates of Return	450
17.10	Why Interest Rates Differ	450

Chapter 18: Using Input Market Analysis **453**

18.1	The Minimum Wage	454
	Further Considerations	455
	Does the Minimum Wage Harm the Poor?	456

The Minimum Wage: An Example of an Efficiency Wage? 458
Application 18.1 The Disemployment Effect of the 1990–1991 Minimum Wage Hike 459

18.2 Who Really Pays for Social Security? But Do Workers Bear All the Burden? 461

18.3 The Hidden Cost of Social Security 463
 The Rest of the Story 464
Application 18.2 Other Hidden Costs of PAYGO Social Security 465
 The Effect on Labor Markets 466

18.4 The NCAA Cartel 467
 An Input Buyers' Cartel 467
 The NCAA as a Cartel of Buyers 469
 Eliminate the Cartel Restrictions on Pay? 470
Application 18.3 The Differing Fortunes of College Athletes and Coaches 471

18.5 Discrimination in Employment 472
 What Causes Average Wage Rates to Differ? 474

18.6 The Benefits and Costs of Immigration... 476
 More on Gains and Losses 478

Chapter 19: General Equilibrium Analysis and Economic Efficiency 482

19.1 Partial and General Equilibrium Analysis Compared 483
 The Mutual Interdependence of Markets Illustrated 483
 When Should General Equilibrium Analysis Be Used? 485

19.2 Economic Efficiency..... 486
 Efficiency as a Goal for Economic Performance 487

19.3 Conditions for Economic Efficiency..... 488

19.4 Efficiency in Production..... 489
 The Edgeworth Production Box 489
 The Production Contract Curve and Efficiency in Production 491
 General Equilibrium in Competitive Input Markets 491

19.5 The Production Possibility Frontier and Efficiency in Output..... 492
 Efficiency in Output 494
 An Economy's PPF and the Gains from International Trade 495

19.6 Competitive Markets and Economic Efficiency 497

The Role of Information 498
Application 19.1 Can Centralized Planning Promote Efficiency? 499

19.7 The Causes of Economic Inefficiency..... 500
 Market Power 500
Application 19.2 How Government Prolonged the Great Depression..... 501
 Imperfect Information 502
Application 19.3 Deterring Cigarette Smoking.... 502
 Externalities/Public Goods 503

Chapter 20: Public Goods and Externalities 505

20.1 What Are Public Goods? 506
 The Free-Rider Problem 507
Application 20.1 An Online Horror Tale 507
 Free Riding and Group Size 507

20.2 Efficiency in the Provision of a Public Good..... 508
 Efficiency in Production and Distribution 510
Application 20.2 The Lowdown on Why Lojack Installations Are Lower Than the Efficient Output..... 510
 Patents 511

20.3 Externalities 512
 Externalities and Efficiency 512
 External Costs 513
Application 20.3 Traffic Externalities: Their Causes and Some Potential Cures..... 514
Application 20.4 Liability Caps and the British Petroleum Gulf Oil Disaster..... 515
 External Benefits 516
Application 20.5 Should Cell Phone Use While Driving Be Banned? 517

20.4 Externalities and Property Rights 518
 The Coase Theorem 519
Application 20.6 Making Telemarketers Pay 520

20.5 Controlling Pollution, Revisited 523
 The Market for Los Angeles Smog 523

Answers to Selected Problems..... 528

Glossary..... 536

Index..... 543
