## **Volume 1A**

### **Part I. The Anatomy of Aging 1**

#### **1. The Global Demography of Aging: Facts, Explanations, Future 3**

D.E. Bloom, D.L. Luca

1. Introduction	4
2. Population Aging	5
3. The Demographic Transition and Population Aging	14
4. The Demographic Determinants of Population Aging	18
5. The Nature of Aging	38
6. Open Research Questions	46
7. Concluding Remarks	47
Acknowledgments	48
References	48

### **Part II. Economic Impacts of Population Aging 57**

#### **2. Macroeconomics, Aging, and Growth 59**

R. Lee

1. Introduction	60
2. Population Aging	61
3. Population Aging, Dependency, and Redistribution of Income Across Generations	64
4. Reallocation Systems	69
5. The Changing Age Pattern of Consumption	71
6. Population Aging and Economic Growth in Comparative Steady States	73
7. The Golden Rule Case	77
8. International Comparisons of Support Systems for Elderly	85
9. Population Aging and Capital Market Equilibrium with Transfers	87
10. Secular Stagnation	93
11. Dynamic Analysis of Population Aging	95
12. Special Topics on Population Aging, Saving, and Capital Intensification	96
13. Population Aging and Human Capital Intensification	102
14. Aging and Productivity Growth	104

15.	Political Economy of Population Aging and the Public Sector	107
16.	Policy Issues	108
17.	Research Directions	110
18.	Conclusions	112
	Acknowledgments	114
	References	114
<b>3.</b>	<b>Migration and the Demographic Shift</b>	<b>119</b>
	A. Zaiceva, K.F. Zimmermann	
1.	Introduction	120
2.	Trends in Population Aging and International Migration	122
3.	Age and Migration: Supply-and-Demand Framework	133
4.	Aging and Migration: Implications for Labor Markets, Public Budgets, and Political Economy	146
5.	Migration, Aging, and Health	161
6.	Conclusions	167
	Acknowledgments	169
	References	169
<b>4.</b>	<b>Global Demographic Trends: Consumption, Saving, and International Capital Flows</b>	<b>179</b>
	O. Attanasio, A. Bonfatti, S. Kitao, G. Weber	
1.	Introduction	180
<b>Part I.</b>	<b>The Overlapping Generations Model</b>	184
2.	The Auerbach and Kotlikoff (1987) Model	184
3.	Extensions to the Model and Methodological Challenges	187
4.	Demographic Trends and Savings	191
<b>Part II.</b>	<b>A Multiregion Model of the World Economy</b>	198
5.	Demographic Data and Projections	200
6.	Model	204
7.	Calibration	210
8.	Numerical Results	217
9.	Conclusion	231
	References	232
<b>5.</b>	<b>Insurance Markets for the Elderly</b>	<b>237</b>
	H. Fang	
1.	Introduction	238
2.	Risks Faced by the Elderly	243
3.	Insurance Markets	258
4.	Interactions Between Social Insurance and Private Insurance Programs	292

5. Summary and Directions for Future Research	298
Acknowledgments	303
References	303
<b>6. Intergenerational Risk Sharing</b>	<b>311</b>
R. Beetsma, W. Romp	
1. Introduction	313
2. Intergenerational Risk Sharing and Aging	315
3. Intergenerational Risk Sharing Under Various Settings	318
4. Pension Arrangements in the Market Economy	326
5. IRS Through Pensions	330
6. Alternative Channels for IRS	342
7. Practical Limitations to IRS	345
8. Quantification of the Welfare Gains from IRS	353
9. Policy Implications	358
10. Literature Gaps and Directions for Further Research	374
11. Concluding Remarks	375
Acknowledgments	377
References	377
<b>7. The Political Economy of Population Aging</b>	<b>381</b>
G. Casamatta, L. Batté	
1. Introduction	383
2. Why Individuals Support PAYG Social Security	392
3. Endogenous Retirement	402
4. The Social Contract	411
5. The Transition to a Fully Funded System	418
6. Quantitative Analysis	420
7. The Political Impact of Aging on Other Public Programs	425
8. Conclusion	438
Acknowledgments	439
References	440

<b>Volume 1B</b>	
<b>Part III. The Household Perspective</b>	<b>455</b>
<b>8. Retirement Incentives and Labor Supply</b>	<b>457</b>
R. Blundell, E. French, G. Tetlow	
1. Introduction	458
2. Trends in Employment Among the Elderly	460

3.	The Retirement Decision	474
4.	Retirement Incentives	482
5.	Models of the Retirement Decision	521
6.	Families and Households	541
7.	Conclusions and Challenges	555
	Acknowledgments	558
	References	558
<b>9.</b>	<b>Investing and Portfolio Allocation for Retirement</b>	<b>567</b>
	<b>B. Kaschützke, R. Maurer</b>	
1.	Introduction	568
2.	Short- vs Long-Term Risk of Retirement Investments	570
3.	Accumulation of Retirement Assets	578
4.	Decumulation of Retirement Assets	584
5.	Payout Portfolio and the Optimal Retirement Strategy	596
6.	Summary	603
	References	604
<b>10.</b>	<b>Conflict and Cooperation Within the Family, and Between the State and the Family, in the Provision of Old-Age Security</b>	<b>609</b>
	<b>A. Cigno</b>	
1.	Introduction	610
2.	Savings, Gifts, and Care of Relatives	611
3.	Social Security	622
4.	Family Rules	635
5.	Optimal Policy	653
6.	Conclusion	656
	Acknowledgments	657
	References	657
<b>11.</b>	<b>Complex Decision Making: The Roles of Cognitive Limitations, Cognitive Decline, and Aging</b>	<b>661</b>
	<b>M.P. Keane, S. Thorp</b>	
1.	Introduction	662
2.	Health Insurance and Health Care Choices	665
3.	Retirement Savings and Investment Planning	681
4.	Models of Choice Behavior That Incorporate Irrational Behavior and Confusion	689
5.	Conclusion	699
	Appendix A. Likelihood Function of the Harris–Keane Model	700
	Appendix B. Simulations of Harris–Keane Health Plan Choice Model	701
	Acknowledgments	702

<b>Part IV. Public Policy with an Aging Population</b>	<b>711</b>
<b>12. Taxation, Pensions, and Demographic Change</b>	<b>713</b>
A. Woodland	
1. Introduction	714
2. Fiscal Implications of Demographic Change	718
3. Taxation Design	731
4. Pension Design	753
5. Conclusions	772
Acknowledgments	774
References	774
<b>13. Social Security and Public Insurance</b>	<b>781</b>
A. Börsch-Supan, K. Härtl, D.N. Leite	
1. Introduction	783
2. Pension Systems: Institutions and Basic Accounting Relations	787
3. Saving Behavior and Social Insurance	797
4. Labor Supply and Social Insurance	818
5. The Macroeconomics of Pension Systems in an Aging Population	830
6. Parametric Pension and Labor Market Reform	838
7. Systemic Reform: The Transition From PAYG-DB to FF-DC	843
8. Conclusions and Research Desiderata	853
Acknowledgments	855
References	855
<b>14. Workplace-Linked Pensions for an Aging Demographic</b>	<b>865</b>
O.S. Mitchell, J. Piggott	
1. Introduction	866
2. Population Aging and Workplace-Related Pensions	868
3. Considerations for Workplace Pension Design	879
4. Policies and Products	885
5. Overall Conclusions and Research Needs	895
Acknowledgments	897
References	897
<b>15. Poverty and Aging</b>	<b>905</b>
J. Marchand, T. Smeeding	
1. Introduction	906
2. Measurement of Poverty With Age	907
3. Poverty and Aging Trends in the United States	911
4. Poverty and Aging Trends in the OECD	919

5. Poverty Alleviation and the Labor Market	925
6. Poverty Alleviation and Social Expenditure	931
7. Summary	939
8. Discussion	940
Acknowledgments	944
References	944
<b>16. Health and Long-Term Care</b>	<b>951</b>
E.C. Norton	
1. Introduction	952
2. Supply Side	954
3. Informal Care	960
4. Formal Home Care	968
5. Insurance	971
6. Quality of Care	975
7. Data	980
8. Conclusion	981
Acknowledgment	983
References	983
<b>Part V. Data for Analysis of Population Aging</b>	<b>991</b>
<b>17. The HRS Around the World Surveys</b>	<b>993</b>
L.I. Dobrescu, J.P. Smith	
1. Population Aging Data: The HRS Network of Surveys	995
2. New Frontiers in the Economics of Aging Research	1009
3. Conclusions	1015
Acknowledgments	1016
